How does Sora handle its Restorative Justice Programs?

Sora's restorative justice program provides a structured and safe space for facilitated dialogues, allowing offenders to understand the impact of their actions and take responsibility for their behavior.

SORA

About Sora's Restorative Justice Program

Our restorative justice program is not only necessary but also vital for our community's well-being and growth. Traditional punitive approaches to justice often fail to address the root causes of harm and do little to repair the harm caused to individuals and relationships.

In contrast, Sora's restorative justice program focuses on bringing together offenders, victims, and the community to engage in open dialogue and seek resolution.

By fostering empathy, understanding, and accountability, this approach promotes healing, restores trust, and helps build a safer and more harmonious society where everyone has the opportunity to learn and grow from their experiences.

Restorative Justice Modules

These modules were carefully selected after research was done using several papers and law articles.

What we typically believe in

01

Protection

You deserve the right to know who is who.

02

Empowerment

We believe in doing good so as to feel good.

03

Restoration

We believe in uplifting those that have a criminal background.

04

Fostering strong communities

We believe that through all our introduced techniques, communities get stronger.
